Instruction manual for these products

TAKO YUZU SAKI AIKO

■ ■ SAFETY ISSUES

Avoid sharing this personal object with others due to hygiene concerns.

Stop using this device immediately if you feel uncomfortable using it.

The use of water based lubricant with this device is recommended.

Be cautious when using your device for anal insertion.

Stop using this device if its tip is chipped or broken or has sharp edges. Please do not use massage oils or hand cream as lubricants for this device, as you will damage its silicone soft touch surface.

Please keep this device out of children's reach.

■ ■ HOW TO USE

1 - Please charge fully before first use. When plugged, the vibrator will light up. When fully charged the light will turn off.

2 - The use of a condom with this device is highly recommended.

3 - Press on/off button for 3 seconds to turn on.

The device will go on standby mode.

4 - When on stand by mode, press top or bottom button quickly and the vibration program will start. To switch to a different program please press same button again promptly (top or bottom button). In total you can choose from 10 different programs on each button (either end of your vibrator). To activate the temperature induction mode please press top button for 3 seconds. In this mode you will notice a change of vibration intensity as your fingers make contact with the lower part of the silicone part of your vibrator. Same will happen as you will insert your vibrator deeper and deeper in your private parts. In total there are 3 levels of induction modes. To exit induction mode please short press any key.

To turn off your vibrator please press on/off button for 3 seconds.

■ ■ PRODUCT BRIEF

Experience sci-fi technology of the 21st century with nobü® toys!!

This revolutionary product functions with a temperature induction system transmitted to the inner sensors by the human body heat!

As you insert it deeper and deeper into your intimate parts you will feel the vibration mode intensify gradually from the tip to the base of the vibrator, without the activation or touch of any controls! This way you can definitely achieve the most satisfying and intense orgasms! The streamline is specifically designed to fit perfectly with a woman's intimate anatomy in mind for maximum comfort!

The advanced magnetic charging contact is not only very convenient to use, but it also permits the entire vibrator to be completely splash proof and easy to clean! The heavy duty Li-ion battery allows you to enjoy your vibrator for over 3 hours between charges. The medical grade silicone used for all nobü® intimate vibrators gives you the assurance that these products are totally safe for your body, and the velvet finish give you that extra soft touch!

■ ■ SERVICE

Your nobü® Vibrator is an extremely well designed and assembled device, using only the best materials on the market and should procure you many years of pure worry free pleasure.

However, If you experience any problems or factory/assembly defects or you need additional information to operate your device please contact our service department and we will do our best to solve your issues as soon as possible.

Caution: please do not take your vibrator apart by yourself or by an unauthorized repair shop, as your warranty will automatically expire.

■ ■ DISCLAIMER

Users of this device are doing so at their own risk. Neither nobü® Toys nor its retailers are responsible for any injury caused by the use of this product. This is to be used as a novelty item only!

This product doesn't claim to cure any disease or STI.

■ ■ CLEANING AND STORAGE

Always clean your nobü® Toy thoroughly before and after each use. Clean your device with an antibacterial toy cleaner.

Hard detergents, disinfectants, acetone or 75% alcohol are not recommended to clean your device.

Avoid direct sunlight and air dry your device.

Store your device in a clean and dry space, and avoid leaving it in contact with other silicone or TPR devices, as this could affect the properties of the high grade ABS of your device.
